## Figma Design:-

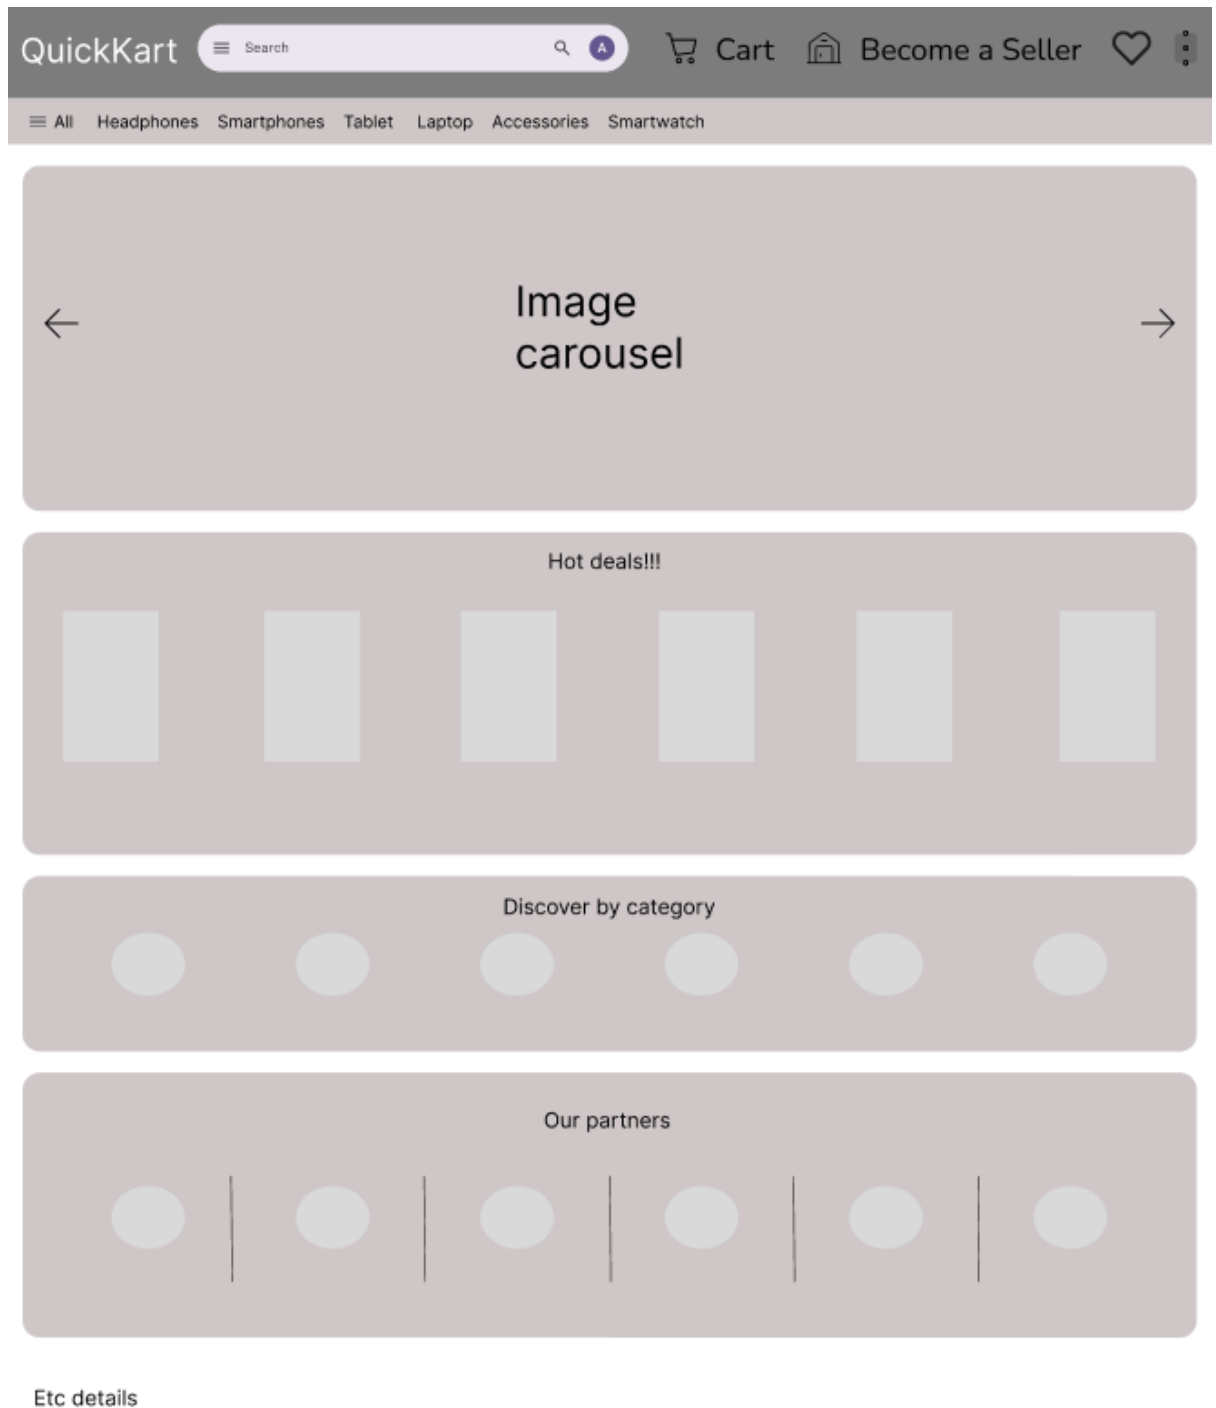

### 1. Login Page:

---

The Login Page of QuickKart allows users to securely access their accounts using email/username and password. It includes options for remember me, social media logins, with a clean and user-friendly design for a seamless experience.

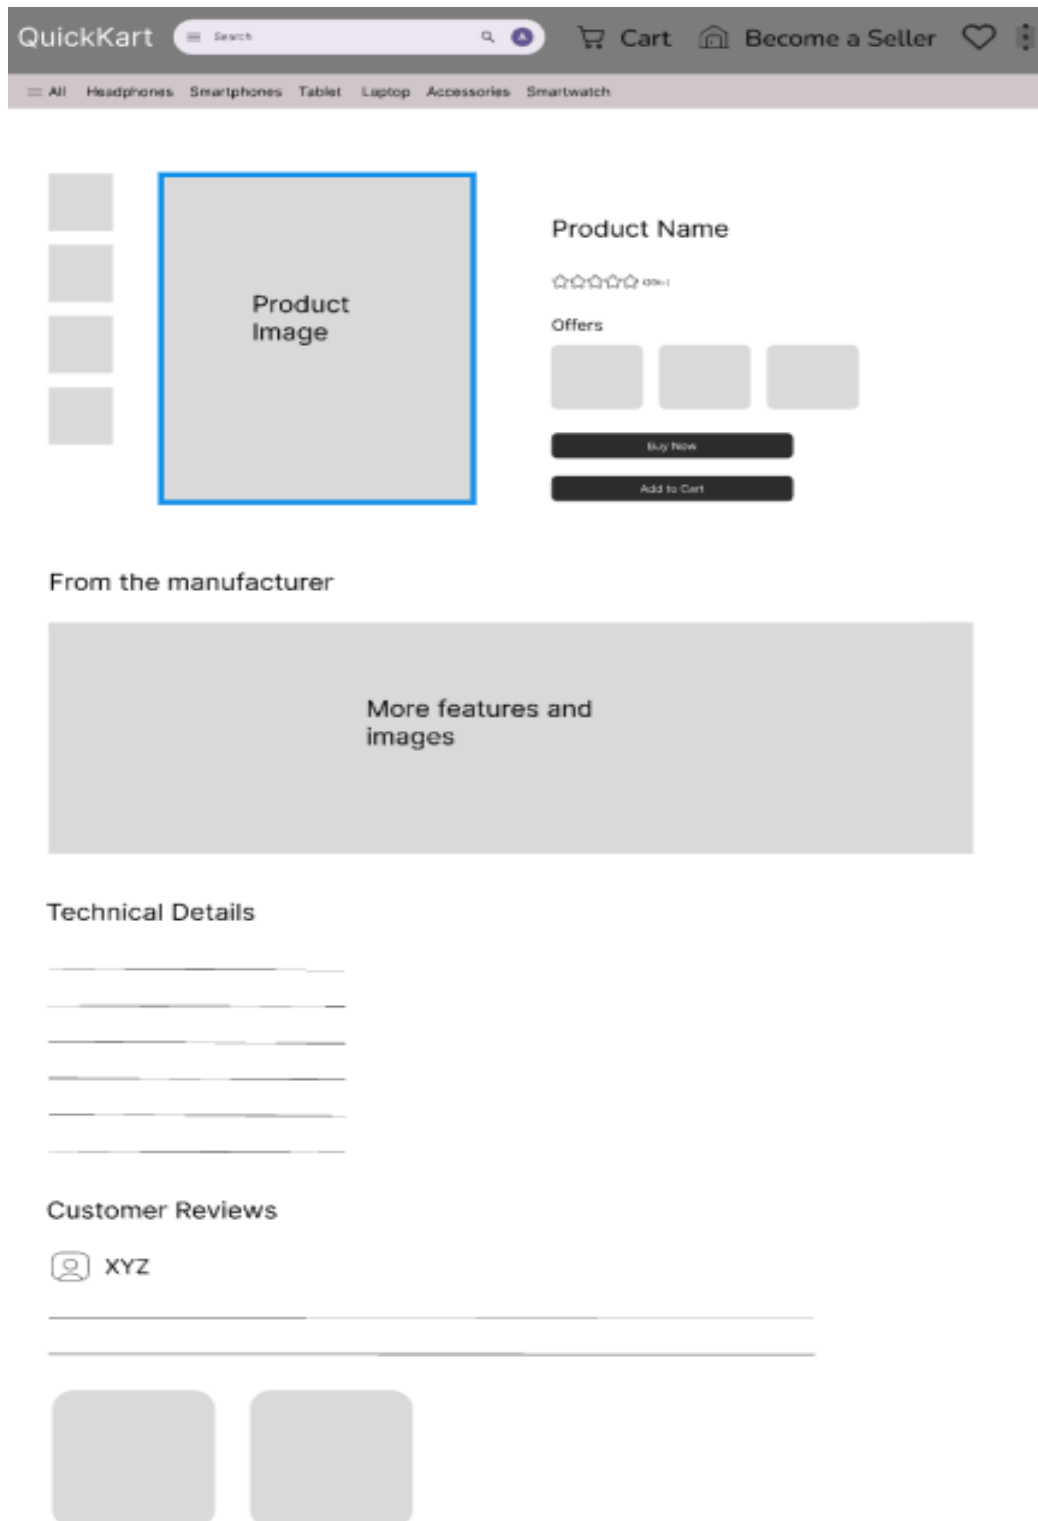

## 2. Home Page:

The Home Page of QuickKart is designed for a smooth and engaging user experience. At the top, it features a header with a search bar, cart, account options, and navigation menu, allowing users to easily browse through various product categories. A prominent image carousel highlights featured deals and promotions, followed by a "Hot Deals" section showcasing discounted or trending products. Below that, the "Discover

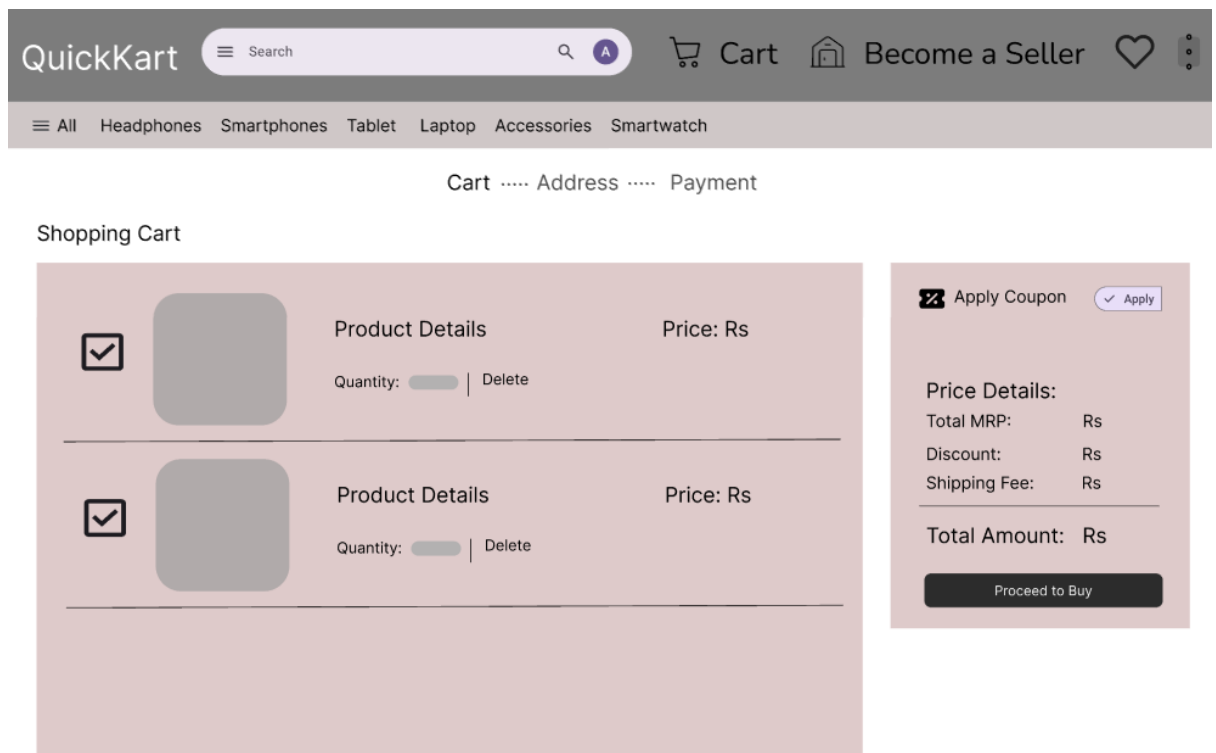

by Category" section helps users explore products based on their interests. The page also includes a dedicated "Our Partners" section to showcase collaborating brands, all within a clean and modern layout that prioritizes accessibility and usability.

### 3. Product Details Page:

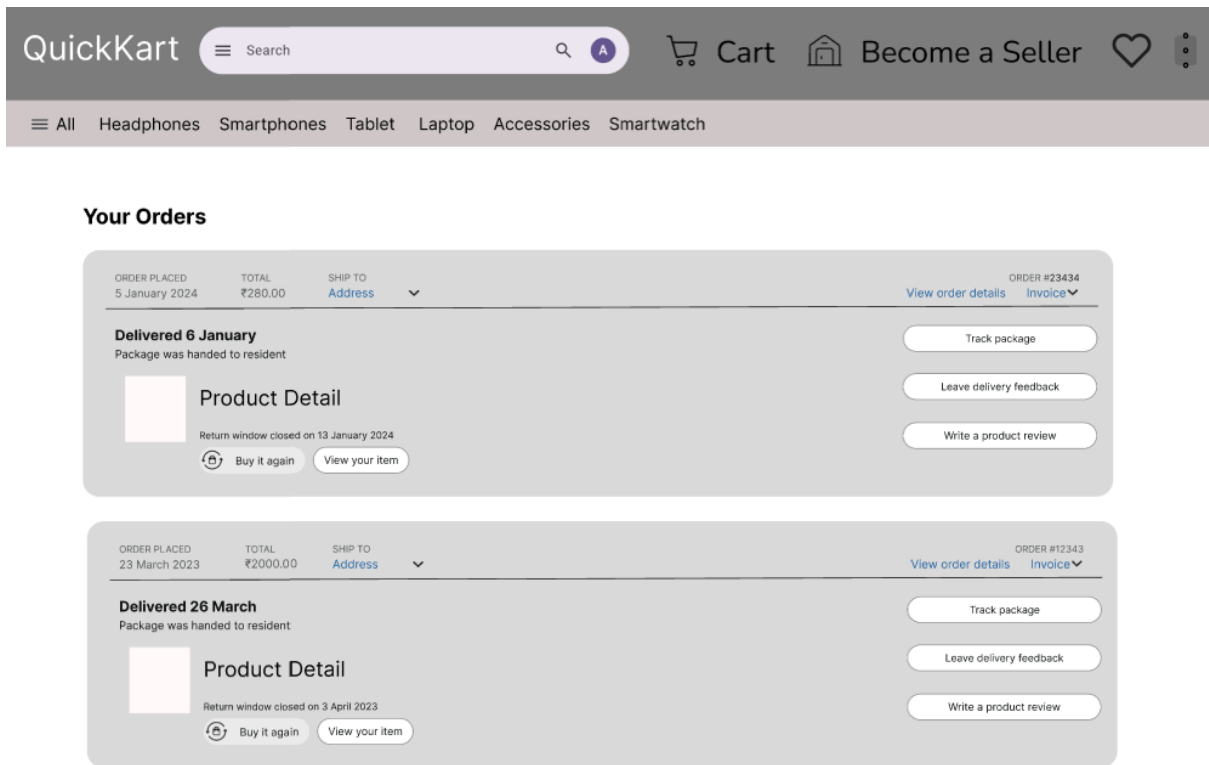

The Product Detail Page of QuickKart provides comprehensive information about a selected product. It features a prominent product image and name at the top, along with any available offers highlighted for the user's convenience. Below these, buttons for "Add to Cart" and "Buy Now" allow quick purchase actions. The page also includes detailed information from the manufacturer, technical specifications, and a customer review section at the bottom, ensuring users have all the necessary details to make an informed purchase.

#### 4. Shopping Cart Page:-

The Shopping Cart Page of QuickKart displays a list of selected items with checkboxes, allowing users to choose multiple products for actions like removal or checkout. Each item includes its name, quantity, price, and an option to edit or delete. At the bottom, the page provides a detailed bill summary, including the total amount and an option to apply offers or discount codes before proceeding to checkout, ensuring a streamlined shopping experience.

## 5. Order History Page:

The Order History Page of QuickKart provides users with a detailed overview of their past orders. Each order displays essential details such as the order date, total amount, shipping address, and order status (e.g., delivered). Users can view product details, track packages, leave delivery feedback, write product reviews, and access invoices. The page also offers options to "Buy Again" or view the item, ensuring users can easily revisit and reorder their favorite products. The clean and organized layout enhances user convenience for managing previous purchases.

## 6. Checkout Page:

The screenshot displays the QuickKart checkout interface. At the top, the header includes the QuickKart logo, a search bar, and navigation links for Cart, Become a Seller, and a heart icon. Below the header, a category bar lists: All, Headphones, Smartphones, Tablet, Laptop, Accessories, and Smartwatch.

The main content area is divided into two columns. The left column contains two steps:

- 1 Delivery address**: Shows the current address and a [Change](#) link.
- 2 Select a payment method**: Offers five options:
  - ☒ **Credit Card/Debit Card**: Includes a [Pay in Full](#) button.
  - ☐ **Net Banking**: Includes a [Choose an Option](#) dropdown.
  - ☐ **Other UPI Apps**
  - ☐ **EMI**
  - ☐ **Cash on Delivery/Pay on Delivery**: Includes a promotional message: [Scan & Pay at delivery with Amazon Pay UPI and get cashback up to ₹10. Know more.](#)A [Use this payment method](#) button is located at the bottom of this section.

The right column features the **Order Summary** section, which lists:

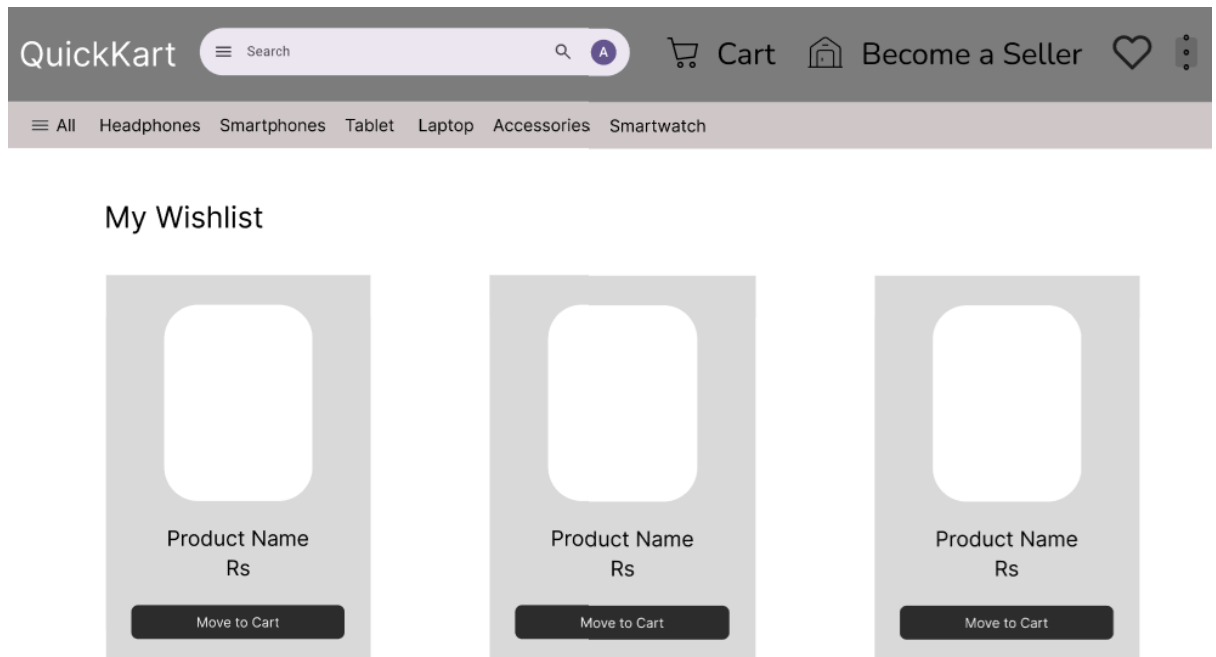

- Items: ₹
- Delivery: ₹
- Total: ₹
- Promotion Applied: ₹
- Order Total:** ₹

A [Use this payment method](#) button is positioned below the order summary.

The Checkout Page of QuickKart streamlines the final steps of the purchasing process. Users first select or add a delivery address, ensuring accurate shipping details. Next, they choose from multiple payment methods, including credit/debit cards, net banking, UPI apps, EMI options, and cash on delivery (COD). A detailed price summary at the bottom displays the total amount, including taxes and discounts, providing transparency before confirming the purchase. This page ensures a seamless and secure checkout experience.

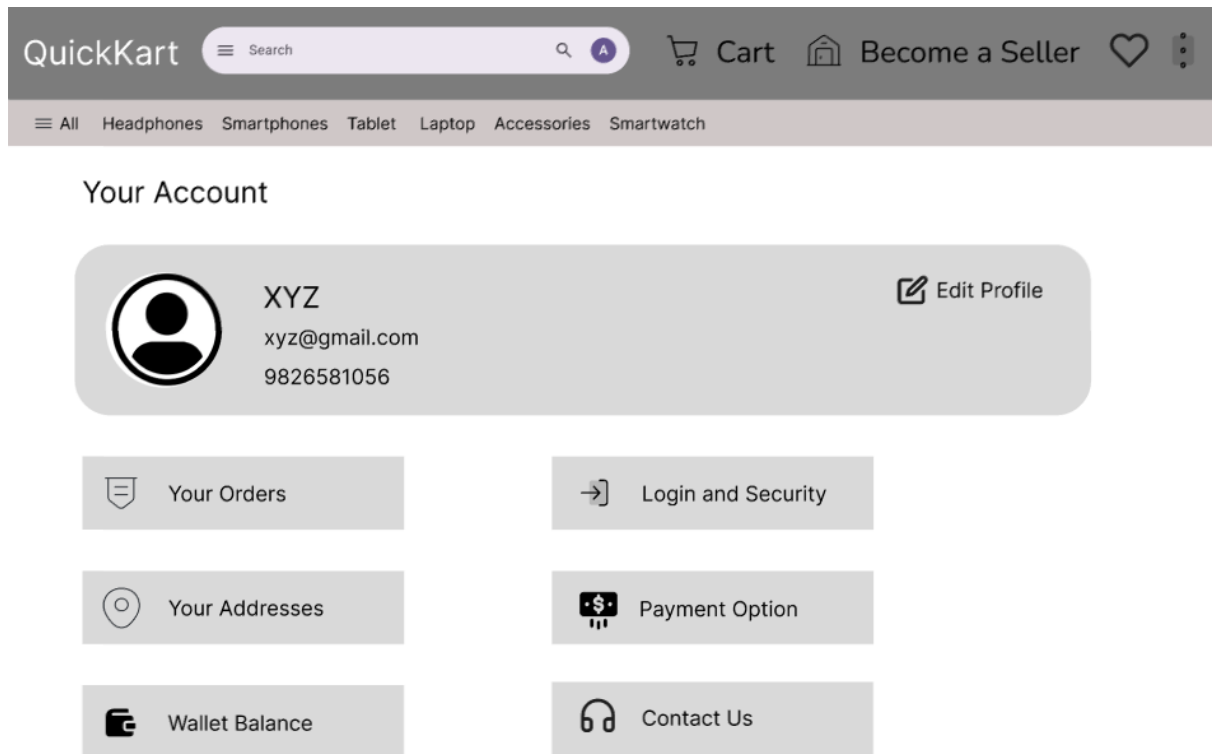

## 7. Wishlist Page:

The Wishlist Page of QuickKart allows users to save their favorite products for future reference. It displays product images, names, and brief details along with an "Add to Cart" button for easy addition to the shopping cart. This feature lets users keep track of items they may want to purchase later, providing a convenient way to manage desired products and quickly proceed with the purchase when ready.

## 8. Profile Page:

The Profile Page of QuickKart is designed to give users easy access to their personal information and account management. The Account Section includes options to view Your Orders, manage Login & Security settings, update Addresses, and manage Payment Options. Additionally, the page features an Edit Profile section, where users can modify their personal details like name, email, and contact information. There's also a Contact Us section for customer support, ensuring users can quickly get in touch for any assistance.
